

INSURANCE PROCEDURES

Coast Physical Therapy requires a copy of your ID, your insurance card, and your signature on our red claim forms in order to bill your insurance company.

We will obtain eligibility and benefit information prior to your treatment. We require all patients to contact their insurance company to confirm this information before treatment begins.

The following may affect your insurance company's payment and your financial responsibility:

1. Deductible: The amount to be met by you (the insured) before the insurance company will pay any expenses. If the deductible has not been met, treatment is \$50 per visit. Payment will be collected at the time of treatment.
2. Copayment or Cost share: The amount per visit to be paid by you (the insured). All payments will be collected at the time of treatment.
3. Limit of visits per calendar year: The patient is responsible to keep track of his or her visits. We will also keep count of visits in your chart, including any prior physical therapy within the calendar year from this facility, or any other facility.
4. Authorization: Occasionally, insurance companies require authorization prior to treatment. Coast Physical Therapy will need to obtain the authorization before treatment begins. If you were not told about authorization, your insurance plan does not require it.

By signing below, you understand and accept the terms and conditions above.

Patient signature: _____ Date: _____

Witness initial: _____
